CARRIAGE TIMED EVENTS AT SONNYBRIER ELMA, WA

Description of the Time Events:

Precision Driving: This is not a timed event, but is an individual pattern class that will be offered at shows this summer. The description and pattern can be found in the ASPC/AMHR rule book under performance classes. Judge to be determined.

Carriage Obstacles: This is a timed event and rules are posted in the rule book. Short version, this is cones with tennis balls. Trot only. Fastest time with fewest balls knocked off wins.

Hazards: Takes place in the field. Two "hazards", each done twice for a total time from start line to finish line. Hazards are gated A, B, C, D and gates must be done in order.

Barrels: This is a carriage barrel race, done in the cloverleaf pattern and in trot only.

Rescue Race Relay: Victim (teddy bears) sit in chairs at end of the arena. Driver must trot to the chair, pick up victim, settle him right side up in lap, go around the back of the chair and back home. Victim handed off to next driver who must replace him, sitting in the chair. Fastest team wins. Again trot only.

Egg and Spoon race relay: Also two man teams, One driver holds spoon in one hand, reins in the other. WALKS to and around a barrel and back to start line, where he passes egg off to the next driver (without touching it: spoon to spoon) Second driver follows suit. Overall time counts.

All patterns will be posted and set up before the day begins. You may walk courses as many times as you like until timers are in place. Some events may run simultaneously. Time will determine placings and will be posted. Awards will be given to the best overall Pony and Best Overall Mini. Placings to fifth. Two man team placings will earn each individual points by their team time.

You may run more than once, but may only use one time. Reruns will be possible only if time allows.

You may choose not to do an event, but you will be at a disadvantage when final placings are determined.
