

**Sparrow** (Captain Jack Sparrow EB). 2009 bay pinto gelding out of a 41" curly pony stallion and a 36" double-registered Shetland/AMHR mini mare. His Shetland ancestors include Kid Lee, Queen Ann's Jet, and Bullseye, and he looks like a show quality Shetland. Excellent driving prospect! He has had lots of handling, leads, loads, ties, clips, and has had regular worming and hoof trims. UTD on shots. Sparrow is a smooth-coat curly who can be registered with ICHO, PtHA, and NSPR and is expected to be about 38 to 40" tall. He has a friendly, people-oriented personality and he is ready for a new home with some experience. \$550.

**Mocha** (Shadow Run Midnight Mocha Express). 2000 36.5" bay AMHR mare sired by AMHR National Champion Mountain Meadows D's American Express. This mare is a great mom, she produces gorgeous babies, and she is just a no-problems little horse. Plus she has great conformation and disposition and lovely movement. She was trained to drive and was shown by Syndi Kanzler in her younger years. I have had her for 6 years and would love to keep her, but I have two of her daughters and unfortunately I don't have enough room. See my website for photos of her parents

and babies. Mocha will be ready for a new home after she weans her 2010 filly in November. \$3000.

**Fanci** (HNF's Lil Fanta C). 1998 35.25" chestnut pinto AMHR mare out of two A size minis. Fanci has paw prints and has had 2 pinto babies, but her mother looks like a solid brown, so I don't think she is homozygous for pinto. She tested negative for the silver gene. Fanci is a good mother but she is extremely protective of her foal for the first 6 weeks and should either be in a hands-off pasture situation or handled by someone with experience when she has a foal. A nonbreeding home would be fine, she's easy to handle without a baby at foot. She gave me a beautiful tiny pinto curly filly this year out of my curly stallion. \$1200.
